Junior Frontend Engineer

I am an enthusiastic, sociable and open-minded software engineer based in London. I like to keep myself busy staying curious and learning continuously. My journey from Architecture and Visualization to software development has equipped me with a unique perspective and a knack for problem-solving.

WORK EXPERIENCE

Zedsoft · 01/2024 - Present
Front End Developer Intern

- Developed Vue.js components for a SaaS platform, integrating API requests and implementing interactive data visualization using ApexCharts.js.
- Utilized Bootstrap for styling and managed version control using Gitlab.

Profiletree · 09/2023 - 12/2023
Web Developer Intern

- Conducted thorough competitor analysis for a career guidance app, presenting actionable insights to leadership.
- Designed wireframes using Figma and implemented web solutions using Wordpress.

DreamQuestViz · 06/2020 - 09/2023
Lead 3D Visualizer · Part-time

- Produced marketing CGIs for several clients including HENLEY Investments and WESTWAY Architects.
- Led client meetings, translated their vision into design proposals, and managed project timelines.
- Overseen and managed the entire visualization process
- Enhanced dreamquestviz.com using WordPress, creating a polished online presence. Implemented SEO strategies to boost visibility and conducted performance tests for optimal page speed. Successfully indexed the project on Google search to maximize exposure and accessibility.

AHMM Architects · 04/2017 - 09/2023
Architectural Visualizer

- Established an efficient content management system, automating asset processes.
- Introduced a content library for streamlined design, alleviating repetitive tasks.
- Created automation scripts for 3D visualizers to help speed up their work and cut out repetitive tasks
- Delivered a variety of CGIs for design decision-making across multiple stages of projects.

Foster and Partners · 09/2014 - 03/2017
3D Visualizer

- Collaborated with senior visualizers to produce CGIs for clients worldwide on high-profile projects
- Participated in a wide range of competitions from exclusive private housing to high-rise buildings, mixed-use developments and masterplans.
